

SUSPENDED PLATFORM WELDING KIT

Ground Conducting Clamp

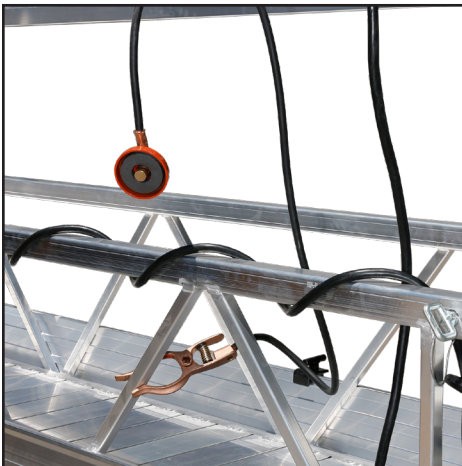

Optional Hoist Covers

Insulated Thimble

Wire Rope Insulating Tube

DESCRIPTION

Welding on suspended platforms creates unique electrical hazards that are resolved by our Platform Welding Kit. The grounding clamp, wire rope tubes, insulated thimble and canvas cover allow for proper platform grounding plus insulation and protection of wire rope and hoist. All kits comply with OSHA standard 1910.451(f)(17) pertaining to welding on platforms as explained on page 2 of this spec sheet.

SPECIFICATIONS

Platform welding kits include (Part #: 934200)

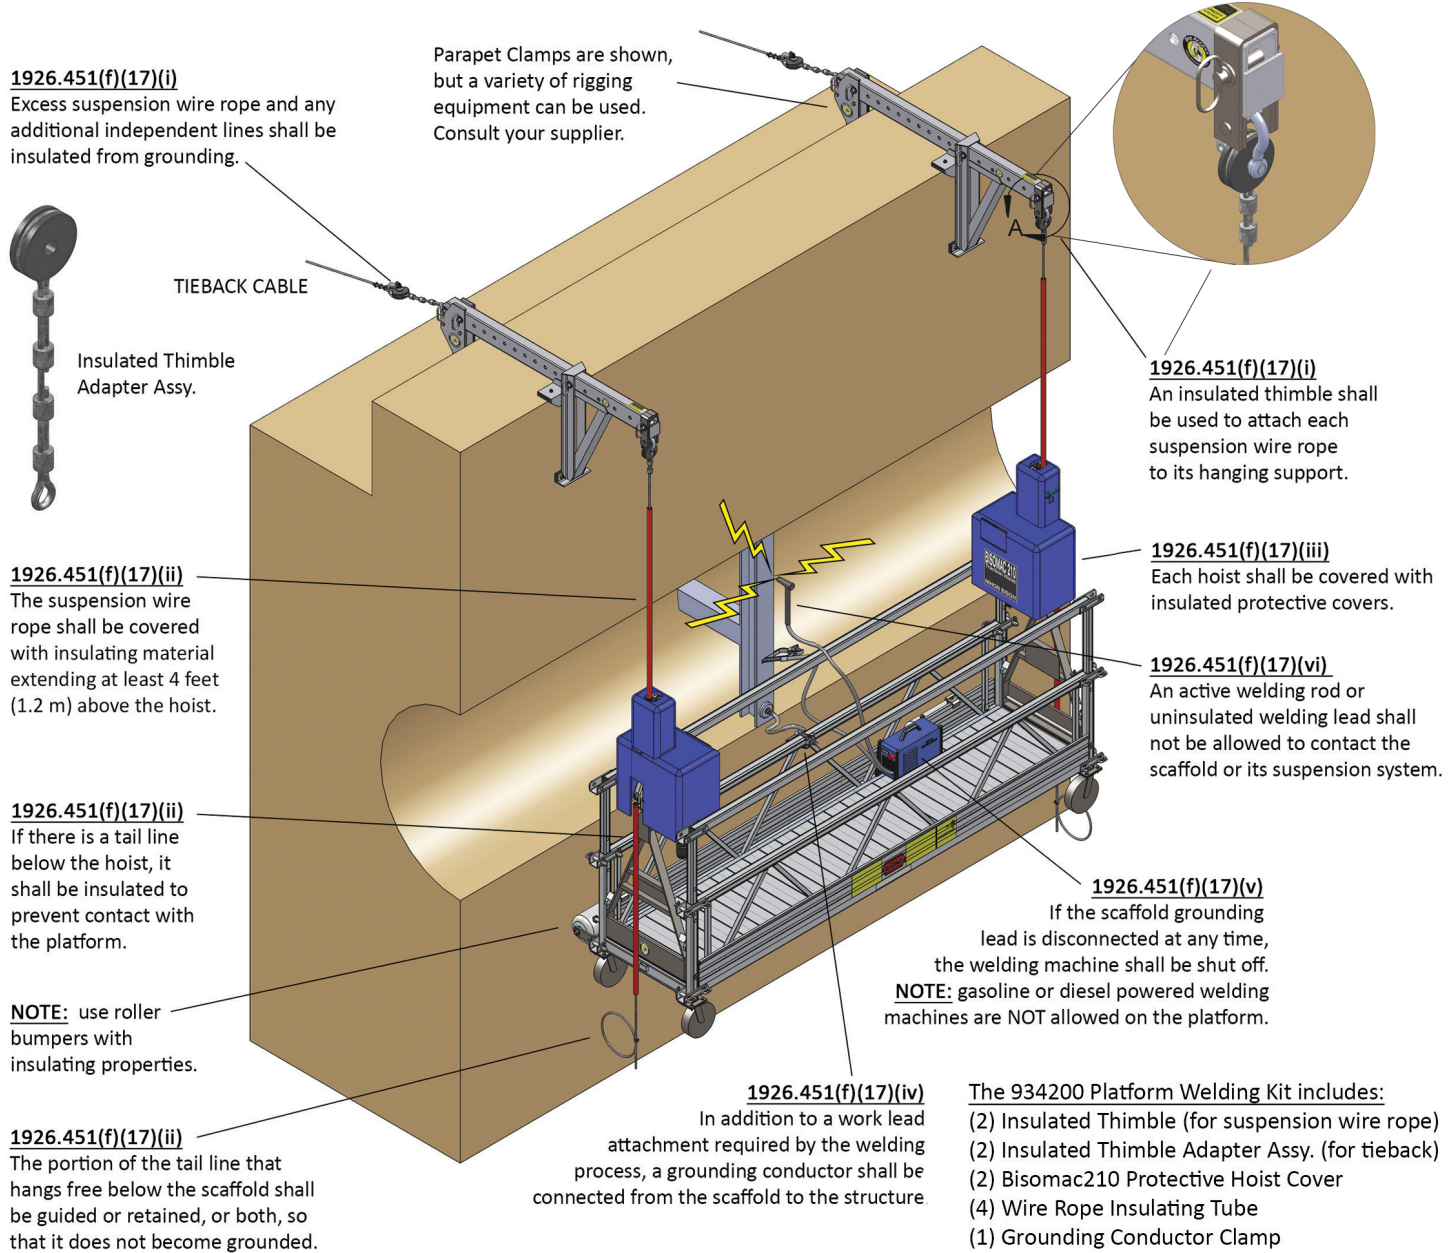

- 2 - Insulated Thimbles for suspension wire ropes
- 2 - Insulated Thimble Adapter Assy. for tiebacks
- 4 - Wire rope Insulating Tubes
- 1 - Grounding Conductor Clamp
- Optional: Hoist Covers for BISOMAC 210 or 308

Workcage welding kits include (Part #: 934200W)

- 2 - Insulated Thimble for suspension wire rope
- 1 - Insulated Thimble Adapter Assy. for tieback
- 2 - Wire rope Insulating Tubes
- 1 - Grounding Conductor Clamp
- Optional: Hoist Covers for BISOMAC 210 or 308

SUSPENDED PLATFORM WELDING KIT

WHEN WELDING FROM SUSPENDED SCAFFOLDING, READ, UNDERSTAND AND COMPLY WITH OSHA STANDARD 1926.451(f)(17)

Platform Welding Kits Available	Workcage Welding Kits Available
934200 - Platform Welding Kit w/ BISOMAC 210 Covers	934200W - Workcage Welding Kit w/ BISOMAC 210 Covers
934201 - Platform Welding Kit w/o Hoist Cover	934201W - Workcage Welding Kit w/o Hoist Cover
934203 - Platform Welding Kit w/ BISOMAC 308 Covers	934203W - Workcage Welding Kit w/ BISOMAC 308 Covers
836120 - Welding Grounding Conductor Clamp	836120 - Welding Grounding Conductor Clamp
