IDENTIFICATION OF COMPONENTS

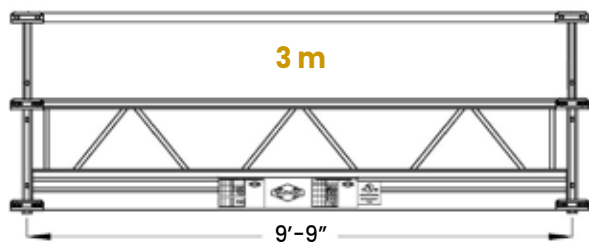

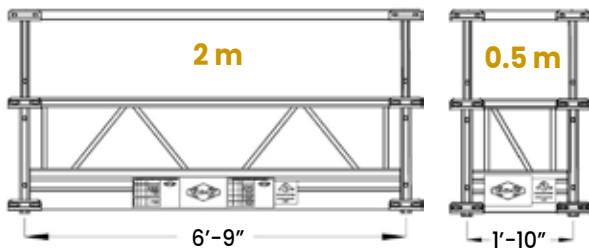

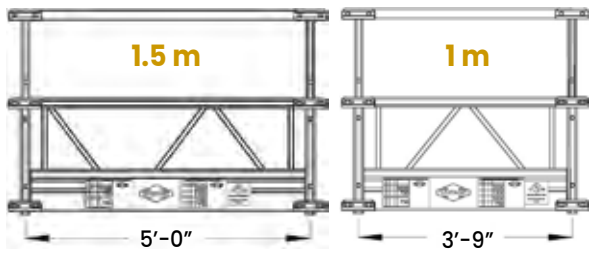

- | | | | | | |
|----|--------|-------------------------------|-----|--------|-----------------------------|
| 1. | US5DK | 0.5M Deck | 6. | USEGR | End Guard Rail |
| | US1DK | 1M Deck | 7. | USQP1 | Quick Pin, Each |
| | US15DK | 1.5M Deck | 8. | 934109 | 8 in. Caster Assy. |
| | US2DK | 2M Deck | 9. | 934102 | End Stirrup |
| | US3DK | 3M Deck | 10. | 934205 | Walk-By Stirrup, MHB60 Alu. |
| 2. | US5SF | 0.5M Side Frame | 11. | 934106 | Low Profile C-stirrup |
| | US1SF | 1M Side Frame | 12. | 934111 | Walk Thru C-stirrup |
| | US15SF | 1.5M Side Frame | 13. | 934113 | Roller Bumper, 6x15" |
| | US2SF | 2M Side Frame | 14. | 934114 | Adj. Roller Bumper |
| | US3SF | 3M Side Frame | 15. | USHS | Hinge Section |
| 3. | US5GR | 0.5M Guard Rail | 16. | USTS | T-Section |
| | US1GR | 1M Guard Rail | 17. | 423050 | Corner Section, 90° |
| | US15GR | 1.5M Guard Rail | 18. | 423055 | Corner Section, 45° |
| | US2GR | 2M Guard Rail | 19. | 423065 | Corner Section, 30° |
| | US3GR | 3M Guard Rail | 20. | 423070 | Corner Section, 15° |
| 4. | USUFR | U Frame w/8 Quick Pins | 21. | 42306A | Adj. Corner Section |
| | USUFRS | Steel U Frame w/ 8 Quick Pins | 22. | US45ES | End Section, 45° |
| 5. | USGRP | Guard Rail Post | | | |

- Available in 0.5, 1, 1.5, 2 and 3 meter sections.
- CUL classified system. Easily assembles into platform lengths up to 62 ft with load capacities up to 2,000 lbs.
- Completely knocks down for easy transport and storage.
- All aluminum modular construction makes UP-STAGE lightweight, strong and versatile.
- Components assemble fast and easy using Quickpins.
- Reversible aluminum decks extend the working life.
- Optional hinge and corner sections add versatility and allow an unlimited number of configurations.
- Many available accessories to adapt to virtually any suspended platform application.
- Unmatched factory product and application support from Bee Access.

DIMENSIONS

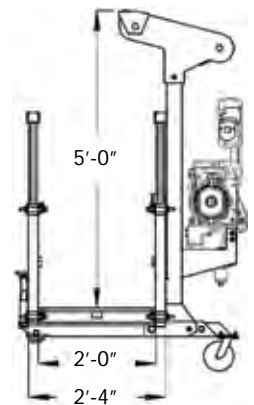

STIRRUP OPTIONS

Low Profile C-stirrup

Intermediate stirrup for flexible length cantilevers. Top of stirrup only 5 ft off the deck to get the platform closer to the rigging for better access to the top of the facade. Can be used on Work Cages up to 1 m.

Walk-By Stirrup
Same height as End Stirrup, but with intermediate mounting for greater flexibility. No sheaves for better efficiency.

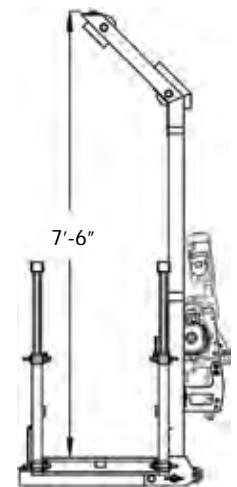

5'-9"

Walk Thru C-stirrup

The high profile design provides excellent stability, especially in workcage applications and when using porch brackets. Can be used on Work Cages up to 2 m.

EXPLANATION OF CANTILEVERED SECTIONS

EXAMPLE OF CHART PLATFORM CONFIGURATION

TOTAL PLATFORM WEIGHT INCLUDES:

Stirrups, but not the hoist, roller bumpers, casters, material or workers.

NOTES:

- All platform configurations as shown in the chart were tested and classified by U.L.
- Any platform configuration not listed on this chart must be approved by Bee Access or a competent and trained person from an authorized dealer.
- Chart above takes into consideration that two (2) hoists are used.
- Rated Working Load must be evenly distributed on Platform.
