HW-DRSCBY

SAFETY CARABINER

Auto-Locking
Twistlock

Bee Access Safety Carabiners are trusted tools for rope-intensive tasks, including fall arrest systems, construction and industrial work. Designed with a locking gate, they provide an extra layer of safety by preventing accidental openings, ensuring reliability in even the most demanding applications. These carabiners provide a cost-effective alternative to anchor shackles and are designed to resist loosening due to vibration, delivering superior reliability on the job.

FEATURES & BENEFITS

- Auto-Locking Twistlock For Safety
- 1" Gate Opening
- Ideal For Use With Hold Me Anchor
- ANSI Z359.12 Compliant

Anchor attachment
with Safety Carabiner,
Hold-Me® Life Anchor
and Grab-Me® Lifeline

SPECIFICATIONS

Part #: HW-DRSCBY

Minimum Breaking Load: 10,000 lbs

Gate Strength: 3,600 lbs

Dimensions: 4.5" x 2.5"

Weight: 9 oz

Construction: High Carbon Steel

Finish: Silver Zinc-Plated Steel
